

ENVIRONMENTALLY FRIENDLY OPERATION

OVERVIEW

- ✓ Malmbjerg has the potential to become Europe's first environmentally friendly source of molybdenum
- ✓ Processing produces nearly no deleterious elements into the water environment and tailings
- ✓ Hauling our ore with an EU built rope conveyor that produces no CO₂
- ✓ Designed process plant operation to use salt water as process water, with very low reagent concentrations to mitigate any potential environmental contamination
- ✓ Limited molybdenum and mine-site consumables shipping season; 8-10 months no aquatic wildlife environmental disturbance in Kong Oscar Fjord
